Dear Group,

Attached is a letter from the Friends of NIOSH calling for the immediate reversal of the recent NIOSH staff firings and restoration of the agency's programs.

As staff members for those on cc line, we 400+ co-signers urge you to immediately help to restart the many programs and functions of NIOSH, which keep the American workforce safe from wide array of on-the-job hazards. In fact, NIOSH's work allows employers and employees alike to be productive, efficient, and effective.

Please contact me, or any of those cc'd, with questions or for more information about this issue.

Sincerely,

Dan Glucksman
